EXPERIENCE

SRC Accelerator & Startup Studio - **Frontend Developer**

March 2021 – PRESENT, Iran - Tehran

SRC is a startup and an accelerator to work with international companies**.**

- Implemented fast and high-quality **Nurse Daisy** and **We Care** websites using React and Angular.
- Analyzed designs and increased website performance up to 60% to meet specific requirements, such as quick loading with particular layouts and increasing user accessibility.
- Collaborated with teammates and researched customer needs for choosing the best technologies.
- Enhanced the code quality of given projects and fixed significant issues based on customer needs.
- Trained new developers of the team to develop ongoing projects and maintain developed projects.

Ariosoren - **Frontend Developer**

May 2020 – July 2022, Iran - Tehran

Ariosoren is a company that manufactures Siebel electronic shooting systems.

- Completed full redesign of existing Windows application system (Match Manager) into an Angular Electron App to boost the system efficiency.
- Implemented and developed **HUB** to record shooters' scores in multiple shooting sports in multiple locations at the same time.
- Managed full-cycle design tasks, handling all phases from developing to deploying while maintaining guideline

Faranegar - **Frontend Developer**

November 2017 - May 2020, Iran - Tehran

Faranegar is an international travel agency.

- Designed and customized **Onlinebooking** website based on customers' needs and desires.
- Completed full redesign of existing website with AngularJs to Angular 8 to improve navigation, enhance visuals and strengthen search engine rankings.
- Checked and managed ticketing system in order to solve clients' issues and ameliorate their satisfaction.
- Crafted SEO strategy and intuitive interface for the site to achieve prominent ranking across search engines.
- Reviewed code to validate structures and refactored the old-technology designs using modern tools for maintainability, functionality and optimization.
